Introduction

Overview:

Hi There My Project Is About An ELearning Platform Like Udemy,Coursera,etc...
Many Of The Persons Are Need Skills Other Than School & College Studies.For That My Website Will Used.

Purpose:

Our Native Language Is Tamil, Unfortunately Most Of The Tech Contents Are Not Understandable & Available Only In English, So I Decided To Change That.
And For Many Students It May Useful For Career.

Literature Survey

Existing Problem:

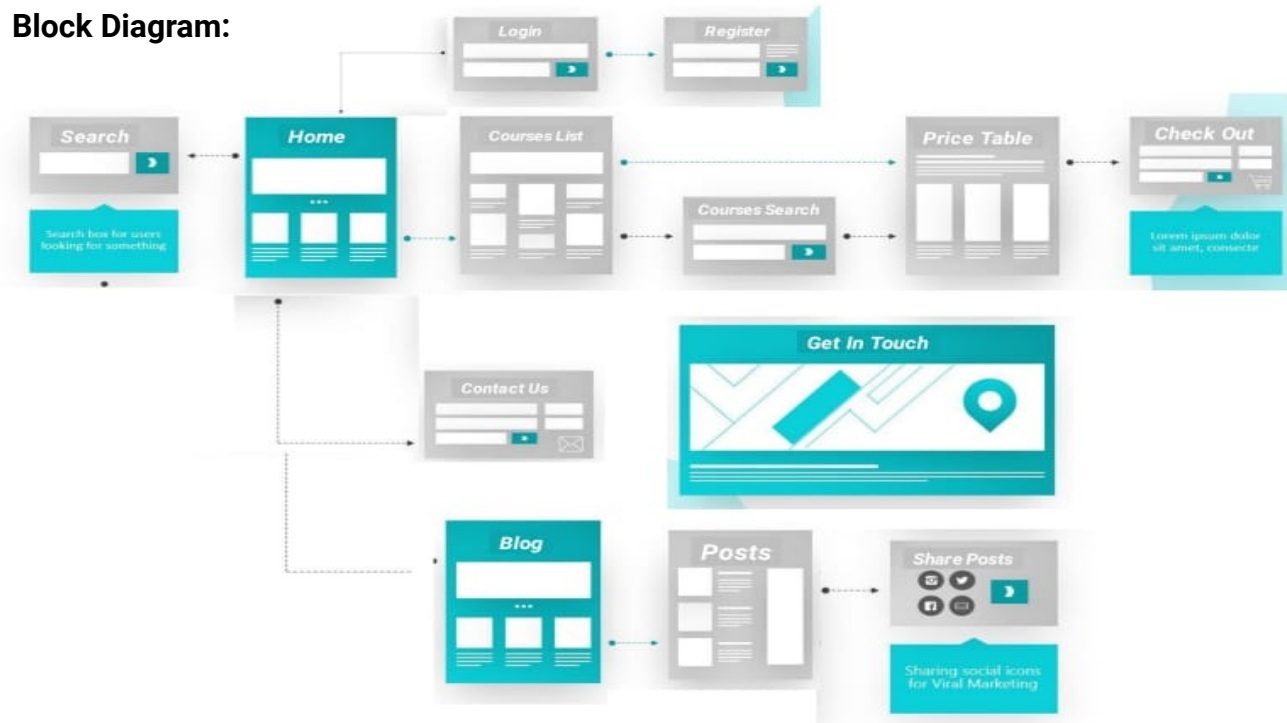

Unfortunately Most Of The Tech Contents Are Not Understandable & Not In Other Languages.

Solution:

Choose Your Right Path & Goal And Learn Towards That By Your Own Interest Or Else With Us.

Theoretical Analysis

Block Diagram:

Hardware/Software Designing:

Laptop/Mobile/Tablet

Ram

Software Requirements:

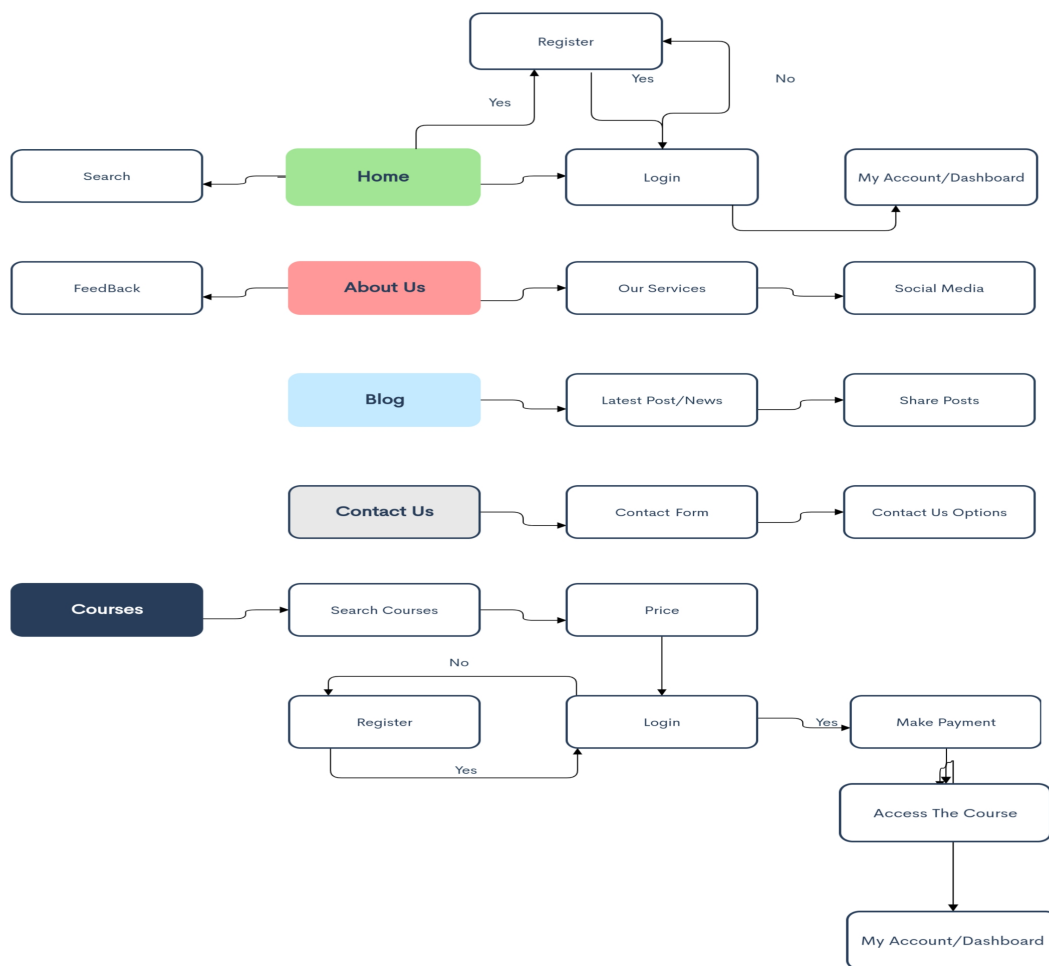

Browser (Chrome,FireFox,etc..) Updated Version

Internet Connection

Experimental Investigations

I Had Seen Many Of The Students Dont Have Basics Skills On Technology.
Still Nowadays Technology Is Improving & New Technology Is Araising.
So I Decided To Give Some Basic Knowledge To The World.
Even I Am Also A Beginner, I Am Also Learned Something New In Online Rather Than
College. For That I Created A Website.

Flowchart

Result

Learn With Us Became An Tech Fellow & Teach Your Knowledge To Others.

Advantages Of Our Platform

- Learn Something New
- Teach Us An Instructor
- Develop Your Own Website
- Help Others

Dis-Advantages Of Our Platform

- Not Yet Famous
- Domain Name
- Payment Gateway (Implemented Soon)
- Still On Making New Courses

Conclusion

Still We Are Students We Will Give Our Best.
